MACHINE GUNS USED AGAINST RIOTERS

Belfast, Ireland, July 23.—Soldiers were compelled to use machine guns against rioters in lighting throughout the city last night and early this morning. In the Falls road district the Sinn Feiners were sniping soldiers and police from roofs and windows of houses. The troops returned the fire. It is stated that the wounded persons in last night's fighting number more than one hundred. Thirty arrests were made.

Three Unionists were shot dead by Sinn Fein snipers and another man's head was blown off. A man helping to carry the body of one of the dead men into a house was killed.

The disorders which started Wednesday afternoon after some Sinn Fein workers in a ship yard were attacked, were renewed at frequent intervals yesterday. Throughout the afternoon the military was engaged on Fall road in erecting barbed wire entanglements across fronts of shops wrecked in Wednesday night's disturbance and posting large detachments of troops at certain of the danger spots.

Soldiers with fixed bayonets patrolled the disturbed streets and many demonstrations which might have led to serious results were interrupted. Looting and smashing of windows prevailed throughout the trouble, spirit, groceries and licensed premises being especially singled out.

Disorder broke out at 8:30 last night on one of the roads leading into the city. Troops were hurried to the scene and fired on the mob, wounding many, who were removed to hospitals or their homes. The crowds reformed quickly, but were charged by the troops and dispersed at 9:30. Reinforcements arrived on the scene and there was a final burst of firing. Ambulances hurried to the spot from every quarter of the city, followed by fire brigades, in the belief that the casualty list would be heavy.

The soldiers complained they were fired on from a monastery and alleged that Sinn Fein scouts on bicycles engaged in bringing up reinforcements to the monastery.

Shooting was renewed this morning in the Kashmir street area where bitter fighting occurred last night in clashes between Unionists and Sinn Feiners, with military intervention. Early in the renewal of the hostilities in this district one man was reported wounded by a shot that through the window of his home.

I was definitely stated this morning that ten persons were killed in last night's hostilities.

Paterson, N. J., July 23.—A strike of approximately 200 broad silk weavers in Paterson mills has been called to take effect at the close of the work day next Monday, representatives of the United Textile Workers and Amalgamated Textile Workers announced here today. The walkout, it was stated, is ordered as a protest wage cuts by employers, which range from \$3 to \$13 a week.

POLAND HARD PRESSED BY BOLSHEVIKI ARMIES

London, July 23.—The Polish outlook appears increasingly menacing to commentators in this morning's newspapers. Poland not only is extremely hard pressed by the Bolshevik armies, they say, but her territory already is invaded. One of the papers prints news purporting to have been received by the British Foreign office, which says the Bolshevik right wing has occupied Seiny, northwest of Grodno, and about thirty miles from the nearest point on the German frontier. The Bolshevik capture of Grodno is confirmed and the Reds are also reported to have taken Bielostok, 110 miles from Warsaw, while in the south they have entered eastern Galicia.

The ministry of Premier Grabski is reported to have resigned, with the administration entrusted to extreme radicals, with the idea, it is said, that such a government would be better able to make terms with the invaders. It is stated that preparations are being made for the evacuation of Warsaw.

Emphasis is laid on the danger to the peace of all Europe by most of the newspapers and the anti-Bolshevik papers see in the Soviet army's advance a determination to destroy Poland.

Another fear expressed is that if the Bolsheviks victoriously reach the eastern frontier of Germany a Spartacist or Monarchistic uprising there would be inevitable, either of which, they say, would be equally fatal to the reconstruction of Europe.

Papers which have been consistently distrustful of the Germans foresee that the military party of Germany not only would find in such a case an excuse for further delaying reorganizing Reichswehr and disbandment of the civil guard, but would secure a direct line of communication with Russia and make itself master of the Bolshevik organizations and Russia herself.

"If this plan is carried out," says the Daily Mail, "Russia would become a German colony and all her vast wealth and man power would be at Germany's disposal. The allies would have lost the peace after winning the war."

The Daily News, which is not unfriendly to the Bolsheviks says is not less because of the fact that Eastern Germany is full of arms and ammunition dumps to be surrendered to the allies. "These finally will be available for Poland if she is invaded, but supposing East Prussia is invaded" asks the newspaper. "Is it so certain that the Bolsheviks won't get them?"

London, July 23.—Capture by Soviet troops of the fortress of Dubno, one of the Volhynia group of fortifications defending the southeastern Polish border is announced in Thursday's official statement from Moscow, received by wireless today.

The Bolsheviks have also taken the railway town of Slonim, 70 miles southeast of Grodno and 25 miles west of Baranovitch.

BRITISH KINGDOM MUST BRACE UP

London, July 23.—"I regret to have to say that Parliament and the Kingdom must brace itself to face a bitter period in Irish history as there will be a determined organized attempt to establish an Irish republic by means of murder and intimidation," declared Sir Hamar Greenwood, Chief Secretary for Ireland, in the course of a debate on Irish affairs in the house of commons today. He appealed to all parties and creeds to support the government, predicting the situation would become still worse than at present.

Sir Edward Carson, the Ulster unionist leader, after declaring that "in three quarters of Ireland the British government has been entirely beaten," said, "There are two courses open for solution—either surrender to the Irish Republic or organization of forces to insure the government is not beaten again."

STELLA-VITAE RIGHTS THE WRONG

The Patriot 95773

The King Pin of the Duroc Breed

Do not take our word for it, just ask any one of the men from Union County who made the Boosters trip to Peacock and Hodge's sale at Cochran, Georgia, and look over the 1919 International Grand Champion. Ask them if the Patriot is not a better Boar than any they saw on the trip.

Superior Defender and Fred's Crimper and Junior Fancy Orion

Are in just as good class as any of them. We say it without fear of contradiction that Sardis Farm has the best equipment, the best hogs and as good management as you can find, and as for Herd Boars no farm can boast of any better.

ON TUESDAY, SEPTEMBER 7th 1920

We will sell a bunch of as good Sows and Gilts and Boars as will be offered this fall and we are especially appealing to the farmers in this offering.

IF YOU HAD

Gone with us to Cochran and gone into the six acre cotton field where \$1,000.00 worth of Arsenate of Lead had been used in spraying the plants and \$225.00 spent for the spray machine and the work done at night, and seen cotton waist high with from three to ten bolls to the stalk and thousands of boll weevils, and hear the owner tell us that the poison seemed to fatten the weevils instead of kill them, you would not wonder why Peacock and Hodge had a \$581.00 average on forty-two head sold. A local farmer bought five of the best sows in his sale, paying \$1,350.00 for one.

All Competent Authorities Say

The boll weevil will come into Union County and destroy the cotton crop. It seems that "a word to the wise should be sufficient."
